VERSION WITH MARKINGS TO SHOW CHANGES MADE:

In the Specification:

Paragraph three starting on page 1:

[0003] A typically rules-based approach employs one or more sets of rules ("rulesets") that define actions or results that occur upon specified input values or parameters. A rule server is a computing device that performs the functionality of applying a set of rules to a given set of input values or parameters. An exemplary rules-based product embodying this approach is the Blaze Advisor™ product available from [Brokat Technologies, Inc.] HNC Software, Inc. of San Diego[Jose], California.
